### DETAILED ACTION

1. Applicant's election without traverse of 10/28/03 in Paper No. 9 is acknowledged.

#### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "sealing element", the "upward closing movement", and the "reduced pressure source", claim(s) 11, indicate air flow direction, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-6,10-16,20,21,24,33 and 35-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 1, "for", the applicant stops short of positively recitation, indicating a mere possibility. The examiner suggests changing this to "adapted for". In line(s) 2, reservoir & holding space appear to be synonyms. This is indefinite. Further, in line(s) 10 & 12, "with" and "its" are unclear.

With regard to claim(s) 11, 15, & 23, these claim(s) are poorly written & simply unclear.

With regard to claim(s) 33, relate these limitation(s) to the structure of the independent claim(s).

With regard to claim(s) 35-37, a method dependent from an apparatus is indefinite.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4, 12-15, 20, 33, 35-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Pullen.

With regard to claim(s) 1, Pullen discloses:

- A holding space 10;
- A lock space 14;
- A pneumatic conveyor line column 1, first paragraph;
- A closure body 15;
- Sealing element 27;
- Vent opening 28;
- Discharge passage 16;
- Stroke element 19, 21;

- Sealing body 17.

**Conclusion**

7. Claims 35-37 are withdrawn from further consideration by the examiner, under 37 CFR 1.142(b), as being drawn to a non-elected invention.

8. Claims 5-6, 10-11, 16, 21, 24 & 38 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Dillon, Jr. whose telephone number is (703)305-9728. The examiner can normally be reached on 8-5:30, every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Ellis can be reached on (703)308-2560. The fax phone numbers for the organization where this application or proceeding is assigned are (703)305-7687 for regular communications and (703)308-0552 for After Final communications.
